

LEATHUR TATTOO

In an age where 'Rock n' Roll' is spoken about in past tense, Leathur Tattoo are carrying the flag in the 21st century with a sound encapsulating the golden age of rock here and now! Along with their powerful Image, rock n' roll attitude and big sound, Leathur Tattoo have developed a name for themselves as Auckland city's premier 'underground Rock n' Roll act. They are as real as it gets, they are your Rock n' Roll cowboys of old, rebels by nature and free spirits. Rock n' Roll is meant to be wild and they are the new age outlaws...

Formed in 2013 the Auckland City based rockers are gearing up to tear up venues all across the country. They play a style of music that is made to be taken on the road and they play as hard as they work. Influenced by rock n' rolls greats (The Stones, Guns N' Roses, Lynyrd Skynyrd, Muddy Waters, The Eagles and Chuck Berry) there is no question that Leathur Tattoo intend on tearing down every venue they play.

The Debut single "L.A.M.F." makes no apologies for its brash raw rock n' roll message.

Leathur Tattoo capture their live precision and ferocity, an art that has been absent in Rock n' Roll for too long. Leathur Tattoo live by a creed: "We only recorded what we can do and only sell what we can play!". Single-handedly flying the flag for boisterous loud hard rock, Leathur Tattoo are a force to be reckoned with.
